I'm a minority-owned business.

Are we already working together?
If not, how will you find me?

apexportal ®

Ultimate Supplier
Diversity Management

Diverse suppliers want to work with you.
And you want to work with them. But manual
processes stop these relationships
from forming.

apexportal provides you with accurate data
and digital workflows to make it happen.

Uncover.

You're already working with more
diverse suppliers than you think.
apexportal can identify hidden diverse
suppliers through continuous
monitoring of your vendor master and
validate their diversity status against
trusted data sources.

Discover.

Need new diverse suppliers for a
sourcing event? Search **apex's**
database of 70 million suppliers based
on diversity certification, location
and industry.

Register.

Embed diversity into your standard
onboarding process with a highly
configurable self-service supplier portal.
Ask suppliers the right questions at
onboarding and automatically validate
the data (diversity status, tax ID/VAT,
bank account, prohibited lists) before
they begin doing business with
your company.

Report.

The **apexportal** Diversity Dashboard
allows you and your executive team to
easily view your program's performance
across every P2P platform and
spend categories.

Create
the Golden
Record.

Report.

Remove manual email exchanges by inviting suppliers to self-register via **apexportal's** online dashboard. Ask them the right questions, at the right time, in their language.

Suppliers input information themselves. They can upload diversity certification for validation or self-certify within **apexportal**.

Validate all supplier data (diversity status, tax ID, bank account, prohibited list checks) against 850+ government, regulatory and third-party sources.

Send the record through your workflows to reviewers and approvers, including specialized diversity and procurement teams.

apexportal's Secure Open Adapter (SAP Certified, Oracle Partner) is a bi-directional feed with your ERP to ensure a fully-validated Golden Record in your vendor master.

Run reports to track diversity spend, program progress, number of diverse suppliers within and across categories.

"Our goal is to have the diversity of our workforce and our supply base mirror the communities that we serve. One way we do that is through Independence's supplier diversity program, which has been in place for over 30 years.

By using apexportal, we were able to identify an additional $1 million in recurring diverse spend. Now, apexportal helps us confirm diversity status as suppliers are onboarded and alerts us to any change in the business.

apexportal is a great enhancement to our supplier diversity program. This is a platform that works for us."

Chuck Stefanosky
Supplier Diversity Director
